Apps Early Adopter Program

Be the first to explore, test, and shape new capabilities.

This is an exclusive, free opportunity to Critical Manufacturing customers who want to get the most out of their digital transformation initiatives by accessing new functional apps early.

When you become part of the Early Adopter Program, you secure long-term advantages to be at the forefront of new technological developments.

This ongoing support ensures your operations stay agile, efficient, and ready to meet future challenges.

Your exclusive benefits

Early access to the Critical Manufacturing APPs Platform

Test new functional apps first, before their official release

FREE
Free testing at no cost, before making an investment

Vote for new apps or features that matter most to you

Benefit from full implementation assistance and ongoing technical support

Enjoy all app features for six months to maximize value

What are the requirements?

1
Active Critical Manufacturing MES customers with a maintenance contract and access to the latest MES version in a test environment.

2
Willing to share a testimonial on Critical Manufacturing channels (website, social media, marketplace, etc.).

3
Open to being a referral for other customers, sharing experiences and insights.
